

THIS IS OUR **GAME**

BWIN FEED IS BUILT BY BOOKMAKERS FOR **BOOKMAKERS**

As a proud member of the GVC Group family our core philosophy is investing into our trading team, operations and state-of-the-art technology to deliver the best pre-match and in-play betting products available. The high reliability, quality, functionality and success of our online sports business has enabled us to share our B2C offering with B2B partners.

SPORTS **CONTENT**

We bring you the same B2C quality in the form of a B2B sports content connection. We trade and supply over 260,000 live and over 330,000 pre-match events.

POWERED BY THE BEST AVAILABLE **DATA**

All of the odds we provide are generated by individual bookmakers sourcing raw scores from all major and official industry data sources creating a one stop shop of complete content.

100% **IN-HOUSE** TRADED AND MANAGED

The expertise and experience of our trading team is in your hands. The quality of the odds provided via the feed is the same as those which drive our own B2C operations, that's why a bookmaker is involved in each and every event of the BWIN feed.

BOOST YOUR **TURNOVER** AND IMPROVE YOUR MARGINS

Our focus is on what drives increased turnover and revenue while reducing risks and liabilities in our own B2C offering. From regularly tuning our trading models to offering high turnover sports, we make every effort to drive increased value and quality.

SUPPORT

We never miss an opportunity to improve our offering. Our sophisticated trading systems and algorithms are also constantly monitored and upgraded to achieve the next level in performance.

To ensure that we meet the highest standard of service we offer:

- integration support
- 24/7 technical support
- extensive experience of over 1500 IT professionals
- regular feature updates and new content addition (also on demand)
- translations for 22 languages, with new translations added upon demand
